

The Work of the Royal Engineers in British Columbia 1838-1863
by His Honour Frederick W. Howry, Judge of the County Court of Westminster. An address delivered before the Art and Historical Scientific Association of Vancouver on the 9th of February, 1909, it details the importance of the Royal Engineers in the formation of BC in keeping the peace, building the first road through the Fraser Canyon, building schools, churches, bridges and even entire towns.
